

# The new road

The New road was put in for lorries, diggers and other machinery to get into the site. It is really good because it is safer for people.

# THE NEW SCHOOL

# ROAD 2008

Why is the road not going to stay?

When the new School is finished this road will be destroyed!

Here is a photo of the NEW road!

The new school road is good and big so the lorries can get through with the material for the new school build
